

Melodies of a landscape – a Czech–German photographic symposium

**With the partners Collegium Bohemicum from Ústí nad Labem and Kultur Aktiv
e.V. from Dresden**

Supported by Interreg V A (fonds for small projects)

Location: Border region of Saxony and northern Czech near Hinterhermsdorf

Date: 27th September till 1st October 2016

Participants: 4 Czech and 4 German participants with residence in the
European Elbe-Labe region

Participants can be artists and designers of all genres who accept photography as part of their expression, including also ambitious and experienced amateurs. No limit of age!

Project idea:

The unique border region of the so called Saxon/Czech Switzerland is in the middle of the focus of this „syn-aesthetic“ photographic image of a sound pattern, as melody of a landscape, with all of its parts: hills, forests, rivers, houses, monuments, peculiarities, and people who live there.

The sound, the melody should primarily shape this specific photography. Secondly – but not obligatory – essays or short statements can be added, linked to the pictures. They can be used in the planned catalogue.

Conditions of the project:

Accommodation, catering & travel are covered by us (fee for artist is not allowed by program Interreg V A though) during the time 27th September till 1st October 2016 in Hinterhermsdorf.

We will print a catalogue including the results of the photographic symposium. Each participating photographer will receive 5 printed catalogues.

Furthermore we will present the artworks on our website “Radio nEUROPA“ (www.radio-neuropa.net) on prominent place. Later online publishing in social media is planned too.

Additionally we will present the results on our international conference Club nEUROPA (in the frame of Music:Match event) as a part of an exhibition in Dresden. The participants of the symposium will receive full accreditation for the conference

where they can see the program, network and gain new international contacts.

Conditions for participants/photographers/artists:

The stay in the accommodation in Hinterhermsdorf is compulsory for all participants during the symposium.

Each participant allows us to print her/his artworks in the catalogue. Kultur Aktiv has the copy right for the first edition of this print. The authors' rights of the participants remain unaffected.

Each participant agrees to participate in the exhibition during the international conference Club nEUROPA and later to provide her/his pictures for another exhibition on the Czech-German cultural ship "Nike".
